Terms: Kigo Websites Services requires Kigo Core Application. Website Services setup fees are due at project start and non-refundable. Projects that run over plan Max Time (30 days for Booking Widget, Good, or Better and 120 days for Better) are considered fully delivered and will require an additional \$250/ €220 / £115 restart fee. A Kigo Client Success Agent will quote additional fees for requests outside the scope of the Plan named above. Self-hosting your Kigo Website typically requires that you have access to a developer with WordPress® skills. Assistance for self-hosting setup will require a separate quote. Typical delivery time is contingent on timely responses by Client to requests from your KDMS project manager.
